

Look at the two plants.

Remove all the leaves from one of the plants.
Keep the other plant as it is.

Fill in this first page.

Our question: How does removing all the leaves affect how a plant grows?

What we are changing:

What we are observing:

It will be a fair test because we will _____

the plants every _____ days.

We will put both the plants _____

Draw your plants, or stick photos of them in these boxes.

Add labels to your picture, to describe what you saw.

Write a few words to say what happened.

Vocabulary you may use:

wilted flowers dead growing taller

Plant 1

What did I do to this plant?

What happened to this plant?
