

# The parts of a flower

# The parts of a flower

## Vocabulary

### Challenge 1 and 2

petal, sepal, carpel, stamen, pollen,

### Challenge 3

stigma, style, ovary, anther, filament

For thinking about functions: **bud**, **protect**,  
**attract**, **pollination**, **seed formation**

### Dissection instructions

- Start at the bottom of the flower and remove the sepals.
  - Place them on your sticky card.
  - Next remove the petals and place them next to the sepals.
  - Repeat the process with the stamens and finally the carpels.
  - Continue sticking them onto your sticky card.
- You should now have a row of flower parts as shown here.
